

Nuclear & Industrial Sockets

12 & 14 Pin Socket - Series 219, 236, 237, 246, 247, 255, 266, 267, 311

Product Attributes

Our industrial style sockets are made with UL & IEC approved sustainable polymers, and are commonly used in industries such as Nuclear, Utility, Rail & Commercial switchgear. They are compatible with our wide range of Industrial relays with integrated locking clip, securely holding them in place without an external hold-down clip.

Integral Locking Receptacle

Proven design approved for shock and vibration in Nuclear Power Plants for 60+ years without external hold-down

DIN & Panel Mounting

Shock & Vibration tested for 35mm DIN mounting and compatible with IEC Panel Mounting.

Effortless Wiring

Terminal locations that match IEC wiring for easy field replacement

P/N: 33377DN

Reduced Space

Slim design to replicate size of non-swappable IEC Contactor. 59% less space than "D" version.

33377D Legacy Din Rail Socket

33377DN New Design

*DN - Socket with Narrow Din-rail mount.

Legacy Panel Mount/ DIN Rail Sockets

P/N: 33377D

*D - Optional Din-Rail or Panel Mount

P/N: 27390D

P/N: 33377

Ratings:
-Nuclear grade
-UL-508

P/N: 27390
